About us

Xigoconnect offers extraordinary IT Talent to various industry vertical.

When you want to recruit junior, mid, or senior-level employees, we find people who contribute to your growth. It may be easier to find IT staff specializing in the cloud, cybersecurity, artificial intelligence, SFDC, and analytics. But, it is not easy to find people who adjust to your business and move towards business goals.

As a result, we step in and curate the right talent pool for your evolving and growing business. You just need to contact us and offer us your requirements. We will pull our resources, find the best experts, and help you find people who work to offer a competitive edge to your business.

TALENT ACQUISITION

Our only goal is to find the right people for you. A lot of businesses have specific IT staff requirements. They want talented people who can work on the cloud, AI, ML, SFDC, analytics, and cybersecurity. However, these gems are scarce in the industry. Therefore, find the leaders who match your requirements.

You need people who understand technology, and that's what we offer you!

How Executive Search Helps your Business Thrive?

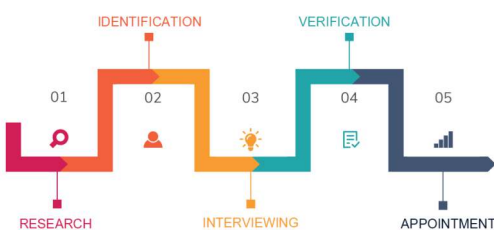

Executive Search aims at hiring executive or senior personnel like Board and CXO level professionals for many evolving brands in India as well as other Multinational Companies.

However, finding true leaders who extend your business goals and culture is no cakewalk. There is a fierce competition in the job market which makes it difficult to attract and funnel out the right leaders.

Xigoconnect's exceptional domain expertise helps you find the potential candidate without any hassle. With access to vast unlisted professionals, meticulous hunting process and top-notch assessment skills, we find you the right leadership to build a thriving business empire, allowing you to break free from the competitive clutter.

No matter how complicated the profiles are, we are game for all your curve balls

Our Recruiting Journey

Why Us

Recruitment is a challenge, involving diverse skill needs, specific role requirements, and dynamic team adjustment. For this, we help you in the following manner:

Requirement Analysis

Before we move on, we assess the client's requirements in and out. This step is often skipped, which gives you lousy results. So, we do it right and clearly understand what you require.

Profile Procurement

Once we have your detailed requirements, we procure candidate profiles from a series of channels. We gather talented professionals who have the ability to adjust to your culture.

Candidate shortlisting

After gathering candidate profiles, we shortlist candidates personally to ensure we don't end up wasting your or our time. This process includes closely scrutinizing candidate profiles.

Candidate assessment

When we have already assessed profiles of various profiles, we interview these candidates; one-on-one interaction. This helps us find all-round candidates with leadership qualities.

Screening

If we find a candidate who is fit for this job role, we arrange a meeting with the client to ensure that the candidate matches client requirements.

What We Do Differently?

Xigoconnect

Finding the right employees for your IT requirements is not an easy task. These people become the leading force in your organization. Hence, you can't afford a wrong move here.

This is where xigoconnect can help you. Through our assessment skills and management abilities, we help you find the right leaders for your organization. Our meticulous hunting process helps in finding employees who are dedicated to your growth and success.

Our IT Domains - Here's a list of IT fields specializations that we offer:

- Cloud computing
- Artificial intelligence
- Machine learning
- Analytics
- Cybersecurity
- SFDC
- Data Science
- Application Development

Xigoconnect

You need people who understand technology, and that's what we offer you!

OTH (One time hire) - You can contact us to hire talented professionals one time. This is a single project requirement. Once the requirement is delivered, the term ends.

The OTH package is perfect for businesses with short-term and project-based requirements.

CTH (Contract to hire) - Another way of hiring IT subject matter experts is contract to hire. You hire these people based on the terms of the contract. For instance, a 3-month contract, where the employee works with you for 3 months. Then you either renew the contract or terminate the employment.

The CTH package is perfect for businesses with a consistent need for IT employees.

Candidate assessment - When we have already assessed profiles of various profiles, we interview these candidates; one-on-one interaction. This helps us find all-round candidates with leadership qualities.
